Note:38 The balance confirmation in respect of debtors, creditors, advances, loans and deposits as at 31st March 2014 have been called for and the same are subject to confirmation and reconciliation if any. However, the management has scrutinized the accounts and the balances appearing in the balance sheet are correct.

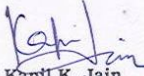

In the opinion of management, no item of current assets, loans and advances has a value on realization in the ordinary course of business, which is less than the amount of value at which it is stated in the balance sheet, unless otherwise specified.

Note:39 a. Figures of previous year are regrouped and reclassified as and when necessary.

b. The Company has been followed inclusive method of accounting by including the Excise duty collected to the sales turnover, and Excise duty paid to the raw material Purchases upto 31.03.2014 and the differential excise duty paid was charged to the Expenses. In accordance with Schedule III of Companies Act, 2013 the excise duty collected on sales is reduced from the sales, Excise duty paid on purchase is reduced from purchase and Excise duty expenses are reduced from the financial results published herewith. Accordingly the sales turnover, Raw Material Purchase and Other Expenditure for the year 31.03.2014 is lower as compare to the published result earlier due to this regrouping. The above does not have any effect on the overall Profit/Loss for the corresponding reporting period.
